

# COMSM0104-Web Technologies Report

Kehan Du, Shunyi Zhao

April 28, 2020

## 1 Introduction

Our team is comprised of Kehan Du (mz19460) and Shunyi Zhao (vt19049). We develop a series of web pages with client web technologies such as HTML, CSS and so on. A javascript frame work, Vue.js are also used to complete these pages. The aim of this project is to complete a full-featured company website.

Our works will not be used commercially.

About six pages will be designed and developed, including home page, bbs page, news page and other three pages.

In server side, we use node.js.

## 2 Page Design
